**10 WAYS TO GET  
10K E-MAIL  
SUBSCRIBERS**

## 10 Ways to get 10K Email Subscribers

1. Create a Lead Magnet/Freebie that your Ideal Clients or Customers want. Put it on a Landing Page and give it away for free in exchange for an email
2. Master the art of writing GREAT ads. This will make clients and customers want to click on your ads.
3. Create an irresistible entry product, one you can sell for \$5-49. This can include things like programs, a meditation, a small item, or other.
4. Build a funnel to capture leads.
5. Create a Facebook group where you ask members for their email addresses.
6. Use custom email opt-in pop-ups on your website
7. Create a quiz to collect emails. Online quizzes can help you increase lead capture by up to 500%.
8. Host free webinars where you provide valuable information to your audience, collect email addresses & promote products/services.
9. Drive traffic from social media to a landing page
10. Run competitions to collect the participants' emails.

**A 10K Email list will generate thousands in sales each month... if built right!**

In fact, every email subscriber generates around \$1/mo. (or more) & will probably buy again, increasing sales.

Businesswomen with 10K subscribers are MUCH more likely to create the income and lifestyle they want.
